Notice to Seize

This is to inform you on this 29 day of July 2024 that we are hereby seizing the key to the city of Everett for no cause. The key has been confiscated due to your failure to meet the requirements and responsibilities associated with holding this prestigious station and honor.

Please be aware that the key will be kept in safe custody until further notice. If you wish to appeal this decision or provide any clarification regarding your actions that led to this seizure, please contact the city authorities at your earliest convenience.

This key represents a high level of trust and responsibility, as it implies the authority to make decisions that can have a significant impact on the economic well-being and welfare of individuals and society.

In a broader sense, this key could also represent the idea of equitable distribution and management of resources, ensuring that financial transactions are carried out in a fair and transparent manner for the benefit of all. It embodies the concept of financial stewardship and responsible decision-making to promote economic stability, growth, and prosperity for the greater good of society. Dear Mayor Franklin,

I hope this message finds you well. I am writing to formally notify you of an outstanding payment owed to me by the City of Everett in the amount of \$10,313,687.75 which is due immediately. This amount reflects the obligation of the City of Everett for malicious prosecution of a prince who has maintained good behavior within the community and tenor of his station, e pluribus unum. All parties were given notice as to who I am, and they believed me not. It has been proposed a warrant for the arrest of the city of Everett treasure for failure or refusal to settle the claim.

In addition to the principal sum, I am also seeking interest accrued on this amount, as well as reimbursement for attorney fees incurred in the process of seeking this payment. The total amount due, including interest and attorney fees, will be calculated and presented upon receipt of the principal sum.

Please consider this letter a formal demand for payment. I kindly request that the total amount be remitted to my address by November 24, 2024. Failure to respond or settle this matter may leave me with no choice but to pursue further lawful action to recover the funds owed.

11 Plaintiff,

MOTION FOR JUDGEMENT AS A  
12 MATTER OF LAW ON THE  
13 PLEADINGS

14 vs.

15 CITY OF EVERETT,

16 Defendant.

17 **1. JURISDICTION**

18 Article I, Section 10, Clause 1: No State shall enter into any Treaty,  
19 Alliance, or Confederation; grant Letters of Marque and Reprisal; coin  
20 Money; emit Bills of Credit; make any Thing but gold and silver Coin a  
21 Tender in Payment of Debts; pass any Bill of Attainder, ex post facto Law, or  
22 Law impairing the Obligation of Contracts, or grant any Title of Nobility.

23 The Contract Clause provides that no state may pass a "Law impairing  
24 the Obligation of Contracts," and a "law" in this context may be a statute,  
25 constitutional provision, **1** municipal ordinance, **2** or administrative  
26 regulation having the force and operation of a statute. **3** But are judicial  
27 decisions within the clause? The abstract principle of the separation of  
28 powers, at least until recently, forbade the idea that the courts "make" law  
29 and the word "pass" in the above clause seemed to confine it to the formal  
30 and acknowledged methods of exercise of the law-making function.

1 Accordingly, the Court has frequently said that the clause does not cover  
2 judicial decisions, however erroneous, or whatever their effect on existing  
3 contract rights. 4 Nevertheless, there are important exceptions to this rule  
4 that are set forth below.

5 Article IV - FULL FAITH AND CREDIT:

6 **Section 1** - Full Faith and Credit shall be given in each State to the  
7 public Acts, Records, and judicial Proceedings of every other State. And the  
8 Congress may by general Laws prescribe the Manner in which such Acts,  
9 Records and Proceedings shall be proved, and the Effect thereof.

10  
11 **Section 4** - The United States shall guarantee to every State in this  
12 Union a Republican Form of Government and shall protect each of them  
13 against Invasion; and on Application of the Legislature, or of the Executive  
14 (when the Legislature cannot be convened) against domestic Violence.

15 The Washington state constitutions article 1. Section 23 states that no  
16 law can pass that impairs the obligations of contracts this is similar to the  
17 contract clause in the United states constitution which prevents states from  
18 passing laws which affect the obligation of contracts.

19 **2. JUDICIAL NOTICE**

20 Please take judicial notice of adjudicative facts that is not subject to  
21 reasonable dispute because it is generally known within the trial court's  
22 territorial jurisdiction; and can be accurately and readily determined from  
23 sources whose accuracy cannot reasonably be questioned the adverse party  
24 has an opportunity to be heard. On timely request, the defendant is entitled  
25 to be heard on the propriety of taking judicial notice and the nature of the  
26 fact to be noticed. Pursuant to §1739. State and Territorial nonjudicial  
27 records; full faith and credit. All nonjudicial records or books kept in any  
28 public office of any State, Territory, or Possession of the United States, or  
29 copies thereof, shall be proved or admitted in any court or office in any other

9 In the matter of the Eddie Alexander Banks Trust, plaintiff verses the  
10 City of Everett, defendant and RAMSEY RAMERMAN, agent of the City of

1 pleading a defendant may file. Once you file any responsive pleading that  
2 appears later. The defendant waives or has given up the right to file any  
3 responsive pleading that appears earlier in the list. Under this rule if you file  
4 a motion to strike before you file a motion to dismiss or a request to revise  
5 you have given up the option to file those pleadings. Notice of Appearance  
6 dated February 29, 2024, and signed by agent, RAMSEY RAMERMAN, of the  
7 City of Everett filed with the court. The actual close of evidence occurred  
8 March 28, 2024.

9 The Plaintiff moves to strike the third-party claim asserted by agent,  
10 RAMSEY RAMERMAN, of the City of Everett or sever it for a separate trial  
11 (Wash. Super. Ct. Civ. R. 14(a)). The plaintiff asserts a claim against the  
12 third-party defendant arising out of the transaction or occurrence that is the  
13 subject matter of the plaintiff's claim against the defendant (the third-party  
14 plaintiff). The third-party defendant has failed to assert any defenses under  
15 Rule 12 and any counterclaims or/and cross-claims under Rule 13. (Wash.  
16 Super. Ct. Civ. R. 14.)

17 The Plaintiff moves pursuant to Rule 12(c) Motion for Judgment on the  
18 Pleadings. The pleadings are closed but within such time as not to delay the  
19 trial, any party may move for judgment on the pleadings and request the  
20 court to enter a judgment based on the conclusion that no reasonable jury  
21 could reach a different verdict. If, on a motion for judgment on the  
22 pleadings, matters outside the pleadings are presented to and not excluded  
23 by the court, the motion shall be treated as one for summary judgment and  
24 disposed of as provided in rule 56, and all parties shall be given reasonable  
25 opportunity to present all material made pertinent to such a motion by rule  
26 56. This motion is supported by an affidavit.

#### 4. JUDGEMENT RES JUDICATA

The defendant has been fully heard by the clan of Banks, a de jure American court of record with respect to the act of state contract. There is no legally sufficient evidentiary basis for a reasonable jury to find or have found for the defendant with respect to that contract, the court may grant a motion for judgment as a matter of law against the party on any claim, counterclaim, cross claim, or third-party claim that cannot under controlling law be maintained without a favorable finding on that issue.

Res judicata has three general elements: re-litigation, same cause of action, and same or closely related parties. 1. Re-litigation. Res judicata prevents a party from bringing a claim once that particular claim has been subjected to a final judgment in some previous lawsuit. Re-litigation applies to a new lawsuit brought in any court, not just the one responsible for earlier judgment. This piece of res judicata is considered the most straightforward of the doctrine. 2. Same cause of action. Similarly, res judicata prevents a party from bringing the same claim or cause of action against the defendant once a final judgment has been made. The term 'claim' is the legal demand for compensation, while 'cause of action' is the set of elements that allow for legal remedy. 3. Same or closely related parties. If the parties to a lawsuit are individuals, it is inherently easier to identify if a new lawsuit does, in fact, involve those individuals. However, the principle of res judicata can also prohibit litigation brought by parties or entities "in privity" to the party involved with the original lawsuit. This can include anyone "acting as an agent" on behalf of the original plaintiff, or any subsidiary of, for example, a corporate plaintiff. And the same principle applies for defendants.

**JUDGMENT RES JUDICATA**

First, the facts in question in the matter of Eddie Alexander Banks Trust  
verses the City of Everett and its agent RAMSEY RAMERMAN, of the City  
Attorney's Office a not moving party is established and those facts were fairly  
and fully litigated. Snohomish County Record Number 202311300035.

The facts are essential to the first action's judgment and the parties  
were deemed adversarial with respect to that action. Res judicata prohibits  
re-litigation on same cause of action, and the same or closely related parties  
the City of Everett and its agent RAMSEY RAMERMAN, of the City Attorney's  
Office and not a moving party. Res judicata prevents Re-litigation by a party  
from bringing a claim once that particular claim has been subjected to a final  
judgment. Re-litigation applies to a new lawsuit brought in any court, not  
just the court of record who is responsible for an earlier adjudication and  
judgment. Similarly, res judicata prevents a party from bringing the same  
claim or cause of action against the defendant once a final judgment has  
been made. The claim for compensation is established by contractual  
agreement. The 'cause of action' allows for legal remedy. That the City of

**Affidavit supporting Motion  
 for Judgment as a Matter of Law**

That I Eddie Alexander Banks-El declare that I am of age of majority and competent to testify to the matter stated herein. The pleadings are in the matter are closed and the Plaintiff show this court that the matter is fully adjudicated and there is no genuine issue as to any material fact and that the moving party is entitled to a judgment as a matter of law. A summary judgment, interlocutory in character, may be rendered on the issue of liability alone although there is a genuine issue as to the amount of damages. This affidavit is based on personal knowledge and set forth such facts as would be admissible in evidence. A motion for summary judgment is made and supported as supported by the rule, an adverse party may not rest upon mere allegations or denials of pleading, but a response, by affidavit and must set forth specific facts showing that there is a genuine issue for trial. If the adverse party does not respond, summary judgment shall be entered against the adverse party. Should it appear from the Affidavits of a party opposing the motion for that reason, the party cannot present by affidavit facts essential to justify the party's opposition.

The signature verifies that the signer has subscribed and read this affidavit and is the best of the signer's knowledge, information, and belief. Further, I, verify under penalty of perjury under the laws of the United States of America that the foregoing is true and correct. Executed on September 4, 2024.

**Allocution**

“I assert my right by public enrolment on the public record; it is my duty to provide new guards for my future security. and such is now the necessity which constrains me, I do hereby alter my former form of government.” 202006300163 For it is established that, one man with the Law is a majority by the motto “**e pluribus unum.**” Coronation oath, pg. 38, 202311300035; Civil Authority, pg. 21 202006300163, WA. Our Constitution is the political document that resulted from that struggle, and it guarantees our liberty to choose the political domain we want to be controlled by without compelled performance.

The New Deal brought in an economic benefit that set into operation certain commercial rules and laws that operate outside the restraints of the Constitution. These mercantile benefits were given at birth as a compelled economic beneficial privilege of an alternative political domain that is permitted by the Constitution but operates outside of it. This

alternative domain operates on the principle being the same as the Divine Right of Kings, 2021-273-4878-6 which operates in an economic capacity rather than a political one.

Private law operates outside of the Constitution under the rights of private contract as stipulated in Article I, Section 10. Article I, in its entirety, expresses all the private law that is allowed in the operation of government of the several states of the union. Section 8 and clause 17 of that Article states that any other private law that is necessary for the operation of government for the commercial benefit of the several states of the union can indeed be legislated from the seat of the estate being expressed in trust. By the absolute rights under the Constitution and its first ten Amendments, the Bill of Rights.

"The individual may stand upon his constitutional rights as a citizen. He is entitled to carry on his own private business in his own way. His power to contract is unlimited. He owes no duty to the State or to his neighbors to divulge his business, or to open his books to an investigation, so far as it may tend to incriminate him. He owes no such duty to the State, since he receives nothing there-from, beyond the protection of his life and property. His rights are such as existed by the law of the land long antecedent to the organization of the State which is by his claim appearing on the public record in the states of Washington, Florida, and Texas, all being Constitutional Republics. The EDDIE ALEXANDER BANKS Estate who maintains a Treaty of Peace, 110651873, FL. owes nothing to the public so long as he does not trespass upon their property and rights."

Let's understand the meaning of private law versus public municipal law. Private law, also called non-positive law and local law, is a term that is used to describe the principles and regulations that an individual uses to direct his or her own life without regard to conflict of law principles. It is also called the "law of conscience." That is, it is one's personal philosophical and religious belief system that you use to control your own life and decisions.

#### **Trust by its *Suri juris* Legislator**

The Crown corporation or sovereign power of the state administers the *cesti que vie* trust and any other private law that is necessary for the operation of government for the commercial benefit of the several states of the union under the current banking emergency. This power and authority can be legislated from the seat of the estate via an expressed trust or any constructive trust. The aggregate of the mercantile benefits come from corporate constructive trust that are generated from the registration of property as chattel paper for services and goods. They are the administrators over that trust of the estate. In the absence of a beneficiary. The State agency with crown powers becomes quasi-beneficiary of the commercial business activity.

The petitioner was presumed to be an employee of the United States or one of the several states of the Republican union. Constructive trusts have been erected by state actors and used to enrich themselves off of the blessings of the American estates. The petitioner declares he is not the *nom de guerre* being the legal title but is legally attached as a trustee by the issuance of a CoLB by the state and the issuance of a social security number. The natural born individual under the American Freedoms and bill of Rights are made inviolable. For all purposes of the income tax act, the trustee is designated as the agent. The administrator of the trust is the crown or state agency who has full authority as the administrator of the estate being executed under the bankruptcy and solvency act. The legal title and the equitable title are to be torn asunder by this executive order under wax seal. Under "black letter law" being the Roman civil law is the basis of state Codes and Statutes that are dictates of public municipal policy via private laws of the public trust. Moved by the presumption relied upon, assumed and presented by the private Bar Guild and others are rebutted, Doc. EAB-24EXL-18101. The commercial system of the American states is to be protected at all costs from the servitude of ecclesiastical authority that dictates the public commercial law policy. The private ecclesiastical law that dictates the public commercial policy and compels performance which is demonstrated by the assertion of the separation of powers and how Public Law is vital for private use to protect the individual rights of the minority. Public Law for private purposes and that liberty is self-

evident and comes before the State. It shall be a rebuke and a stumbling block to the very harbingers of reappearing tyranny and oppression.

Roman civil law relies entirely on unilateral or implied contracts. This is where one party agrees by the simple act of accepting a benefit(s) that the civil government has to offer. In other words, the individual has something offered to him that he accepts. Usually, an economic or mercantile benefit. The act of acceptance, with or without a signature of acceptance, comes with certain strings of compelled performance that are attached. This is because the very act of voluntary acceptance by silence is taken as an implied endorsement. The implied endorsement creates a constructive trust arrangement with the civil government for the assumed benefit. This is why there is no separation of power, only one power and that is government. The people are subservient because they are involved in a constructive trust that controls their conscience. Roman civil law is the basis of the franchise of the "several states of the union" that was granted by the people of the Republic. This means an expressed trust can become the third party who can dictate the Statutes, Codes and laws by its legislature, and any amendment or restatement of trust and they are compelled to align themselves with the estates plan, because of their silent volunteering.

The system of commercial law in the American states is under a unique type of law that the government was forbidden to have direct contact with the people. Unlike the Roman civil law. The federal government was there to oversee the economic cooperation between the several states of the union who were in fact foreign to each other and had an obligation to provide for their common defense and to work out commercial business activity of and between the several states of the union, as they relate to each other and the prospect of world trade.

Everything the individual got involved in under Roman civil law had implications that obligated him or her on account of economic benefits being accepted by their continued silence. There were always strings attached that were considered a benefit. The agreement never has definite limits. What is agreed on is only implied or constructed upon the circumstances restated in trust. The implications of a unilateral offer and acceptance would always create a third party constructive or implied trust agreement.

This trust, being the third party, was always there to oversee and to exact what it thought it was due through compelled performance to the rules of the private trust that bound the persons who had private business dealings with the estate. There is no separation of powers. In other words, there is no way to have a true bilateral general common law contractual relationship because of the government having the petitioner in a trust relationship making his position inferior, not superior. The presumption puts the petitioner as trustee to become the trust and therefore part of the government. Counter Affidavit pg. 23, 202006300163. While at the same time, the government becomes a quasi-beneficiary and part of the trust compelling the petitioner to serve as a volunteer. His identity is lost in the trust relationship due to purely moral ideas developed outside the legal system. The movement away from Law because it finds its chief reliance is on the power of the magistrate.

Federalism is based on Roman civil law (private federalism), where both the petitioner identity and the government's presumption are confused by permitting a constructive or implied trust arrangement. The government is constantly a part of the corporate contracts. They are the undesignated administrators of the petitioner's conscience via the 14<sup>th</sup> Amendment charitable public trust. Under Roman civil law the petitioner has been considered incompetent and unable to handle his private affairs by mistake, error or omission. So, the estate by expressed trust is involved as a third party in all the petitioner's private business affairs. When a dispute arises between parties in a state, the courts are to rule on the contract pure and simple and having no Codes, Statutes applied, with no implications to be explored. The ruling is made upon the contract with jury assistance if demanded without Codes, Regulations or revised Statutes drummed up by a third-party overseer enjoying undue enrichment drawn from the estate.

Private law, which the Roman civil law thrived on, is the conscience of law of one "person" in (trust) over another where there is no liberty of choice as to its terms. The terms of the contract or agreement (also called an offer) are always based on the personal beliefs of the Roman civil government. The offer is always unilateral where your acceptance is totally signified by the respondent's silence.

The substance of private federalism is purely the private law or conscience of a private religious charitable trust that is operating under the private Roman civil law of the 14th Amendment as a vested interest in the commercial entity called "government." This private religious charitable trust which is operating under private Roman civil law of the 14th Amendment moved into the public arena by voluntary silence and accepted by 51% of the general population. Anytime a civil relationship is established, it is based on implied and 28 indefinite trust principles. The result is a government that has created a third-party administrative bureaucracy that spends its time making and readjusting Codes and Revised Statutes that dictate public policy. This is an executive order to continue the compelled performance of the citizen beneficiary to service the public debt and thus promote the economic benefits of the government held in the public trust. Only the individual, as "one people" as declared in the Declaration of Independence. pg. 12, 202311300035 We the people, have the power and choice to determine a Republican form of government as stated in Article IV, Section 4 of the Constitution by calling on Public Law for private purposes. Thus, federalism has come, in modern parlance, to mean the division or dispersal of central power.

I need intervention in this matter before I act with critical mass. The individual estate declaring bankruptcy remains under the supervision of the trustee who is responsible for maintaining the individuals, financial matters and debts by assignment owed to his creditors. It's a trustee's job to protect persons in property not mine. For if I do I assure you no one will like the calculated response.

#### **Assignment**

As Executor of the estate, I hereby assign legal title back to the United States or state trustee carefully by being conscious of the assertion. 2018000062910

Through the Bankruptcy the petitioner has legally separated himself as the presumed trustee of the Registered NAME (EDDIE ALEXANDER BANKS) and the state of Washington, a Republic. With its original port of entry being the District of Columbia is hereby assigned trustee and administrator of the claimed and landed estate with Eddie being the individual and the beneficiary of the landed estate. By his federal oath, Pg. 15, 202006300163, delegates its powers over the district to the elective government and exercise of local police power. Under current law structure of trust, the trustee is permitted to make money under the estate. But that money does not belong to the trustee.

After the process of registration of the legal title. The equitable title falls away upon merger and the legal title is returned to the principle under state and bar guild presumption of trusteeship and not as a fee simple owner. This position carries all legal and statutory liability of taxation which attaches by federal rule 301. That residents and state nationals are entitled to all the guarantees of the United States Constitution. The estate possesses original jurisdiction over its affairs, the blended powers of local and national legislature by home rule doctrine when legislating for the estate's affairs. Article IV, Section 4, is the guarantee of a Republican form of government. Ordinary constitutional restrictions do not operate against the estate. When legislating for the estate it remains the private legislature of the union, a Republic. So that it may give its enactments nationwide operating to the extent necessary to make them locally effective and enforceable. The taker in due course of the power of attorney in relation to the Trading with the Enemy Act as amended 1913, 40 Statute at Large 411, pg. 418(e). Application for Pardon and Amnesty oath, pg.18, 202311300035 is now force exercised.

By the Constitution Annotated of the taking of powers under Article I Section 8 of Enumerated Powers Clause 17 by the Enclave Clause, expressed.

The estate shall have the power to exercise exclusive Legislation in all Cases whatsoever, over such District (not exceeding ten Miles square) as may, by Cession of a particular State, and the Acceptance of Congress, become the Seat of Government of the United States and to exercise the authority over all Places purchased by the consent of the Legislature of the State in which the same shall be for the erection of Forts, Magazines, Arsenals, dock Yards and other needful Buildings. By conferring jurisdiction by naturalization of the United State on and in the navigable water ways of the United States as the case may be, by any expressed Cession of any particular State weather verbal or written, and the Acceptance of Congress is granted by full faith and credit clause, to public acts and records to become the Seat of Government of the United States, and exercise of the sovereign authority.

An individual having appeared and petitions to become a taker of the crown corporation's power and assigning to the crown and/or state agents, or administrators to occupy the trustee position and facilitate the natural born individuals transition to now become the Beneficiary of the cesti que vie trust. Now in an undischarged bankruptcy matter. The landed estate of Eddie Alexander Banks an occupant of the Executor office is now seated. The petitioner gives a mandate by executive authority hereby commissions that the beneficial use as the petitioning individual has been presumed to be trustee and employee of government is no longer being presumed as such. The trusteeship now falls to the crown or state. The petitioner is now the undischarged bankrupt. The bankruptcy trustee is discharged, and the trusteeship now falls to the crown or the sovereign state. Letters appointing of Executor, pg. 4, 9, 202311300035. The Executor of the estate is now entitled to issue his original letters in the administration of the Estate.

Political power is inherent in the people exercising authority in the election of the government through our voice and actions by the taking up, the affairs and powers of the estate in the form of self-government now being the undischarged bankrupt.

The estate remains a Legislature of the Union, a Republic, and the seat of government. So that it may give its enactments, nationwide operation, to the extent necessary to make those Acts locally effective, by means of Amendment and Restatements that the inter vivos Living Trust may proceed to supplement or modified actions from time to time by ancillary procedures.

I Eddie-Alexander, owing allegiance to the organic United States, PRE#202311300035 pg. 26, having an Amnesty Oath on file and being a spiritually alive non-citizen national of the United States hereby confers that he is not in the United States as a non-resident alien, without regard to conflict of law principles. (1) Interests to be affected must be described in pleadings that give reasonable information to owners by name or class, by reference to the instrument creating the interests or in another appropriate manner.

(2) A person is bound by an order binding another in the following cases: (A) An order binding the sole holder or all co-holders of a power of revocation or a presently exercisable general power of appointment, including one in the form of a power of amendment, binds other persons to the extent their interests as objects, takers in default, or otherwise are subject to the power. (B) To the extent there is no conflict of interest between them or among persons represented: conservator controls;

(i) an order binding a conservator binds the person whose estate the

(ii) an order binding a guardian binds the ward if no conservator of the 21 ward's estate has been appointed;

A general power, as used here and in Section 1-108, is one which enables the power holder to draw absolute ownership to himself. The section assumes a valid general power. If the validity of the power itself were in issue, the power holder could not represent others, as for example, the takers in default.

### **Accounting policies**

*Critical accounting policies* – Use of estimates. The preparation of financial statements and Conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reporting amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the Consolidated financial statements and the reported amounts of Revenue and expenses during the reporting. On an ongoing basis, the registrant receives its estimates based on information that is currently available. Changes in fact and circumstances may cause the registrant to revise its estimates. The most significant establishment related to revenue recognition, depreciation and depletion and amortization, and the assessment of impairment of long-lived assets and oil and gas properties. Actual results could differ from estimates under different assumptions and conditions, and such results may affect income, financial position or cash flows.

*Fair value of financial instruments.* The registrant estimates the fair value of its financial instruments using available Market information and appropriate valuation methodologies. However, considerable judgment is required in interpreting Market data to develop the estimates of fair value. Accordingly, the registrant's estimates of fair value are not necessarily indicative of the amounts that the registrant could realize in a current market exchange. The use of different Market assumptions and/or estimations methodologies may have a material effect on the estimated fair market value amounts. The registrant believes that the fair value of its financial instruments comprising accounts receivable, accounts payable and accrued liabilities appropriate their carrying amounts due to their short maturities. Therefore, the price at which the secure debtor obligation is being offered has been appraised, derived and valued at a fixed, fair market value based on legislative assessment dollar for dollar.

**EDDIE ALEXANDER BANKS ESTATE AND TRUST®™**

TO ALL who these presents may come greeting:

Article IV - §1 Full Faith and Credit shall be given in each State to the public Acts, Records, and judicial Proceedings of every other State. And the Congress may by general Laws prescribe the Manner in which such Acts, Records and Proceedings shall be proved, and the Effect thereof.

1. Comes now the lawfully authorized representative asserts a rebuttal to the presumption of any federal, state, local municipal Court proceeding under the Constitution or one of the several State constitution of the United States of America. The matter is established by the Public Record:
2. Florida 110651873; 110253253; 110352040; Washington 20206300163; 202311300035; 2021-273-4878-6\_
3. To address the presumptions relied upon, assumed and presented by the private Bar Guild, including but not limited to the bar, the American Bar Association, Barristers, the National Lawyers Guild, Law Society and Solicitors are hereby rebutted.
4. The declarant openly rebukes and rejects by stating clearly the matter is to be on the Public Record and doesn't stand as a private Bar Guild matter being commenced under private Bar Guild rules. Notice to agent is Notice to Principal. Notice to Principle is Notice to agent.
5. The Declarant openly rebukes and rejects, the claim that the Private Bar Guild who have all sworn a solemn secret absolute oath to their Guild then act as public agents of the Government, or "public officials" by making additional oaths of public office that openly and deliberately contradict their private "superior" oaths to their own Guild. These private Bar Guild members are not legitimate public servants and therefore trustees under public oath.
6. The Presumption of Public Oath is that all members of the Private Bar Guild acting in the capacity of "public officials" who have sworn a solemn public oath remain bound by that oath and therefore bound to serve honestly, impartiality and fairly as dictated by their oath. Declarant openly challenges and demands that the Private Bar Guild members have functioned under their public oath in contradiction to their Guild oath. If challenged, such individuals must recuse themselves as having a conflict of interest and cannot possibly stand under a public oath.

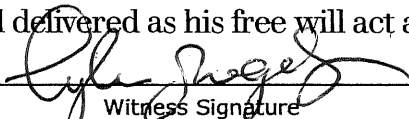

7. The Presumption of Immunity is that key members of the Private Bar Guild in the capacity of “public officials” acting as judges, prosecutors and magistrates who have sworn a solemn public oath in good faith are immune from personal claims of injury and liability. Declarant openly challenges the Public Oath and demands the presiding official’s oath of office, that the members of the Private Bar Guild as public trustees acting as judges, prosecutors and magistrates are not immune from accountability for their actions.
8. That the presumption of Summons is by custom a summons unrebutted presumption stands and therefore, one who attends Court is presumed to accept a position (defendant, juror, witness) and the jurisdiction of the court. Attendance to court is usually an invitation by summons. The summons is hereby rejected and returned, with a copy of the rejection filed prior to choosing to visit or attend, jurisdiction and position. The accused and the existence of “guilt” does not stand.
9. The Presumption of Custody is that by custom a summons or warrant for arrest unrebutted stands and therefore one who attends Court is presumed to be a thing and therefore liable to be detained in custody by “Custodians”. [This includes the dead legal fiction non-human “PERSON” that corporate-governments rules and regulations are written for.] Custodians may only lawfully hold custody of property and “things” not flesh and blood soul possessing beings.
10. Declarant rebuts this presumption and openly challenges it by rejection of summons and/or at court, the Declarant is not a thing and/or property and therefore lawfully cannot be kept in custody by custodians. Declarant rebuts openly the presumption to demonstrate that the Declarant is both a general guardian and general executor of the matter (trust) before the court. The Declarant is not in default and has no obligation to obey the rules of the clerk of guardians (clerk of magistrate’s court).
11. The Declarant waive the benefit privilege and openly challenges the Presumption of Court of Trustees is that members of the Private Bar Guild and the Declarant do not accept the office of trustee as a “public servant” and “government employee” just by attending a Roman Court. As such Courts are always for public trustees by the rules of the Guild and the Roman System.
12. The Presumption of Court of Trustees is that members of the Private Bar Guild presume you accept the office of trustee as a “public servant” and “government employee” just by attending a Roman Court, as such Courts are always for public trustees by the rules of the Guild and the Roman System. The Declarant does not consent to jurisdiction – simply because he “appeared.” The Presumption of Government acting in two roles as Executor and Beneficiary is that for the matter at hand, the Private Bar Guild appoint the judge/magistrate in the capacity of Executor while the Prosecutor acts in the capacity of Beneficiary of the trust for the current matter.
13. The Declarant openly challenges the court to demonstrate that he is both a general guardian and general executor of the matter (trust) before the court. The Declarant is not in default and the trustee and has no obligation to obey the rules of the executor (judge/magistrate). The Declarant openly challenges and asserts his position as Executor as well as questions if the judge or magistrate is seeking to act as Executor De Son Tort.

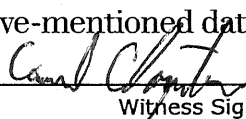

14. The Declarant is competent to give testimony in the matter and is with the knowledge of the law, and therefore competent to present his interest and argue properly. The presumption is openly challenged to the fact that the Declarant occupies the position as executor and beneficiary and actively rebuked and object to any contrary presumptions. It shall stand at the time of pleading that the Declarant is competent to handle his own affairs.
15. The Presumption of Guilt is the presumption that as it is presumed to be a private business meeting of the Bar Guild, one is guilty whether you plead "guilty", do not plead or plead "not guilty". Therefore, the Declarant has prepared this affidavit of truth, counterclaim and motion to dismiss with extreme prejudice for the public record or call a demurrer, the presumption is the Declarant is guilty, and the private Bar Guild can hold him until a bond is prepared to guarantee the amount the guild wants to profit from the estate is rebutted.
